To Whom It may Concern

RE: TESTIMONIAL – Lois Roberts, P. E

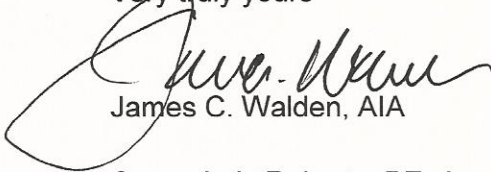

I have been invited to offer a testimonial comment concerning my experience in working with Lois Roberts, P.E. of Westport, CT

Without hesitation or reservation I offer the following. I have known Lois for more than ten years and have worked with her on several projects in the intervening years. I have found Lois to be incisive, analytical and insightful in tackling the complexities of the projects on which we have worked.

Equally important Lois presents herself with a “professional bearing” ... she is an Engineer and she acts like an Engineer ... her presentation of the technical issues are unfailingly concise.

I have had the opportunity in a career of practicing Architecture for 50 years to have retained Mechanical Engineers in the New York – Connecticut- New Jersey tri-state area who are considered as providing superior services...these firms include Cosentini, Assoc., and Syska & Hennessy. The services delivered by Lois in my experience are above par ... superior services.

Very truly yours

James C. Walden, AIA
